Dear Sir:

Your letter of April 23rd to Mr Cameron has been referred to the writer.

We are very much interested in the letters you attached from Mrs Bates but fear that she would not appreciate having us send them on to her, as we have fully exploded Mr Bates claims that the body now in possession of Mrs Bates is that of John Wilkes Booth.

If you will advise the writer the copies you have missed in the series of seven articles, we shall be very glad to forward them to you. Complying with your request, we are herewith returning Mrs Bates' letters dated March 9th and March 30th, 1925.

Very truly yours
