Dear Mr Doherty:

The writer read with interest your letter of March 17th to the press with reference to the claims of an alleged member of the Booth family.

You will undoubtedly be much interested in a series of stories now running in The Dearborn Independent, copies of which are being sent you herewith. As the other stories are published, they will be forwarded also. We have gone into these myths quite carefully and the writer would appreciate very much hearing from you after you have read them.

Very truly yours
