My dear friend:

The last number of your article on Booth came yesterday.

NO.	
ENT. CASH	30¢
MAY 15 1925	MAY 14 1925
SAMPLE SENT	<input checked="" type="checkbox"/>
CARD SENT	<input type="checkbox"/>
ACK'D.	<input type="checkbox"/>

25 sent 5/15

I find that I have not the whole series. I have received the following numbers: March 21, 28, April 11, May 2.

I desire the complete file and am enclosing postage for the numbers that are missing. I have not the one description of St. Helen in Texas.

Amos T. Harrington, M. D.

2.

I especially desire the Feb 7th number that contains
J. Frederick May's "The mark of the Scabbard." I have had
archivists hunting for that pamphlet since Shepherd's article
in the Hornet Harpers, but without success.

I don't know what to make of Wilson. He made
statements to me in Springfield that do not tally with
some of my own researches.

I have used the Phoenix Mutual Life Insurance Co's
Medical Examiners in California to find out about
some of those hotels where Wilson said St. Helen met the

Amos T. Harrington, M. D.

Booth and found that Fresco was not even
founded till '72 and yet St. Helen stepped(?) there in '67.

What articles I have received I have enjoyed. I
regard your position as tenable. Wilson never
replies to any of my letters. I have given him
a number of facts on the supposition that his
statements were accurate, but he does not
reply. He intends to bring out a book but when
I do not know.

I want to thank you for your kindness
and also for the copies for which I am sending.

I hope you may work out that Harley Ross
affair in the future,

kindest regards,

very cordially,

Amos T. Harrington -
