Dear Sir:

I have had some recent correspondence with Dr Amos T Harrington of Hartford, Connecticut, who informs me that you have some information with reference to Booth's alleged escape; particularly with reference to stories told you by Samuel Colman, who met John St Helen on the steamer going from New Orleans to Vera Cruz.

Dr Harrington also says that Francis Wilson, who gave you the above information, has a photostatic copy of the register of the Pacific Hotel of San Francisco showing St Helen and the Booths there at about the same time. The writer would appreciate your advising him how he can get possession of these facts.

Very truly yours

T
