0. J. Fleming, President Enid National Bank remembers John Walter Robison as a land attorney who died in Enid a number of years ago.

Frank Letson, Vice-President Enid National Bank was interested in amatuer dramatics about 20 years ago and knew John Walter Robison quite well. He says Robison was always very much interested in amatuer dramatics. He was a Southerner and always very neatly dressed. He says Robison, for several years, represented some out of town paper and that he hung around the local theatres considerably and sent flowers to more than one of the actresses playing in stock companies in Enid. He says he remembers him particularly as one of the very few men in town to have a dress suit at that time.
