Dear Dr Harrington:-

I still have several articles dealing with the Assassination to appear in the Dearborn Independent and I am sending you herewith the last one, which was in our Lincoln number of this year.

I am wondering if, as a result of further investigations you have discovered anything new. Have you any criticism of points contained in my stories? I sent them to Dr Wilson but they were never acknowledged. Is he still planning to bring out a book?

Did the Phoenix Mutual people find anything of consequence for you in California?

With best wishes, I am,

Very truly yours
