Mr. F. G. Black

Mr. Shepherd, of Players
Club advised me to write
to you as one of the investigators
of Carol Myth. I did not see
your articles on that.

My home is the house built
by Junius Brutus Booth, when
all his children were born. Bought
directly from Mrs. Booth by my
husband, fifty years ago.

So many come to see the

or any thing you may think
of interest. I had a letter from
Mrs. Bates saying she had
sold the mummy and turned
the other things over to Clarence
Jane Wilson. He seems so
deep in another subject I get
nothing from him except he is
coming to see me. I want to
get three pictures of the mummy
for in something wild, some are
most interested. I have written to
Venice, Cal. but no answer.

If you feel interested in giving
me any assistance I shall appreciate it
Yours sincerely Ella C. Mahony

place, I have arranged the
many article of interest I
possessed, and with much
that has been sent to me,
makes with the setting of
of the old Tudor house, with
its furniture etc. a very
interesting collection.

It is John Wilkes Booth
in whom most people are
interested, and I am writing
with the hope that you, being
informed on a special phase
of the subject may be interested
in helping me with information
